

IO - Fighting food waste! Finding solutions

Theme: Short chains and urban agriculture
Speakers: Coby Zephyr Babani (FSEN), speaker from Humble Harvest

Outcomes

1. Collaboration between different organizations which are fighting food waste and connecting for future activities together and/or helping each other.
2. Dissemination of information. In one hour we hear so many different ideas and so much information about food waste and food surplus initiatives, we decided to all send an email to Coby with all the info we have and he will add it all together and send it back to everyone.
3. We are not alone. We think and approach differently. Through gathering all together and discussing different ideas and aspects of the issue, we all get strengthened by seeing so many others walking the same path. It is inspiring and motivating.
